Subject: Veteran Inquiry

Hi—I spoke to a veteran looking for information about the radiation at Treasure Island to support a claim with the VA. I forwarded him your contact information. I am hoping you can refer this person to a fact sheet and documentation that summarizes the activities that occurred at the former Naval Station during time of service associated with radiation. Do you have anyone at the Navy that routinely assists veterans in narrowing down the information that could help with their claims, or a particular contact person I should forward these inquiries to?
